An innovative twist on tradition

Luminette®

Privacy Sheers

Privacy with softened light. Enjoy subdued light and the privacy of soft draperies in Luminette® Privacy Sheers. Fabric vanes rotate for privacy while controlling the light in a room. Perfect for large windows and sliding glass doors, their superior UV protection meets both your decorating and practical needs.

Gentle translucency for an endless variety of moods

Silhouette®

Window Shadings

Transforming light. Like the subtle cast their name suggests, Silhouette® window shadings, with the Signature S-Vane™, create beautiful and ambient light and shadow. Soft fabric vanes are suspended between two sheers, diffusing softened light deep into a room. Tilt the vanes to achieve the privacy you desire while maintaining UV protection.

Grand openings for filtered light, or taking in the view

Pirouette®

Window Shadings

Striking design, dramatically filtered light. With Pirouette® window shadings, the look and feel of a traditional fabric shade is enhanced: the gentle pull of a cord lets you change a room's lighting in a whole new way. Soft, horizontal fabric vanes close to filter natural light, or open to give you a perfect outside view. Our revolutionary Invisi-Lift™ system allows the vanes to float gracefully, and even opened they offer UV protection and reduced glare through the sheer backing.

Filtering light and insulating your home all year round

Duette®

Honeycomb Shades
